TRIBUTE TO DR. MATTHEW ALLEN

HON. MICHAEL T. MCCAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 10, 2009

Mr. MCCAUL. Madam Speaker: I rise today to pay tribute to Dr. Matthew Allen, nuclear physicist from Sandia National Laboratories, for his outstanding service to the Nation. Matt has served with distinction as a Fellow these last two years on the House Committee on Homeland Security, and has worked closely with me for the Subcommittee on Emerging Threats, Cybersecurity, and Science and Technology.

Matt has been instrumental in providing technical expertise to me on critical nuclear-related matters affecting the security of the homeland. He was an essential resource in the successful introduction and ultimately House passage of the "Next Generation Radiation Detection Act of 2008." His oversight and legislative work on issues such as radiation detectors, national nuclear forensics capabilities, and the Securing the Cities program was thorough, well informed, and infused with good humor.

Always wanting to learn and to do, Matt took an interest in areas beyond his personal comfort zone, including biosecurity, cybersecurity, and the nuances of the legislative process. He took enormous pride not only in the details of his work, but in the concept that a laboratory scientist could be invited to serve the Congress in such a central capacity. He referred to his fellowship as a "study abroad" program, and, like an idealistic student, delighted in everything the Hill and Washington, DC had to offer.

I applaud Matt's service and hope, long after he has returned to the lab bench, for his continued engagement in policymaking.
